

Your Thesis Title

Your Name

June 27, 2026

Abstract

Write a short summary of your thesis here. Briefly describe the research question, methodology, data, and main contribution.

Contents

1	Introduction	2
2	Literature Review	2
2.1	First strand of literature	2
2.2	Second strand of literature	2
2.3	Research gap	2
3	Theoretical Framework	2
4	Methodology	2
5	Data	3
6	Results	3
7	Discussion	3
8	Conclusion	3

1 Introduction

Introduce your topic, motivation, research question, and contribution.

Example citation: digital platforms have reshaped market competition (**smith2021**).

Your research question could be written as:

How does X affect Y in the context of Z?

2 Literature Review

Discuss the main strands of literature relevant to your thesis.

2.1 First strand of literature

Summarize the first group of papers here. Compare their arguments, methods, and findings.

2.2 Second strand of literature

Summarize the second group of papers here.

2.3 Research gap

Explain what is missing in the existing literature and how your thesis addresses that gap.

3 Theoretical Framework

Explain the concepts, theory, or mechanism behind your research question.

4 Methodology

Describe your empirical strategy, qualitative method, model, or analytical approach.

For example:

$$Y_i = \alpha + \beta X_i + \gamma Z_i + \varepsilon_i \tag{1}$$

where Y_i is the outcome variable, X_i is the main explanatory variable, and Z_i represents control variables.

5 Data

Describe your data sources, sample, variables, and limitations.

Example table:

Table 1: Summary of Main Variables		
Variable	Description	Source
Outcome variable	Brief description	Data source
Main explanatory variable	Brief description	Data source
Control variable	Brief description	Data source

6 Results

Present your main findings here.

7 Discussion

Interpret your findings. Explain what they mean, how they relate to the literature, and whether they support your expectations.

8 Conclusion

Summarize the thesis, main findings, limitations, and possible directions for future research.
